**DLC verdict: Get it on sale**

**Comment:**

The paint job for the buggy is okay. So is the outfit you get. Both have a very Mad Max style. But the reason why I recommend this DLC is the Marksman Rifle. It takes away 40 points from "Rate of fire" but gives you 25 points in "Accuracy" and cool looking red dot sights for any rifle of your choosing. However, this DLC is NOT part of the Season Pass or Enhanced Edition. As such it is probably best to get it on sale OR if you want to show more support get it for the full price, the content is good.

**P.S.: You will unlock and use the buggy during The Following campaign expansion.**
